This Friese Tjalkje is a historic commercial vessel built in 1934. In 1980 she was converted into a motor yacht and was rented out until 1997. The hull has remained original (possibly shortened), the decks and the superstructure were installed at that time. A Mercedes OM636 was installed in 1980, which was replaced in 2005 by a very reliable Mitsubishi diesel. The Hora windows were installed in 2007.

In 2021 the superstructure was painted, in 2020 the conservation of the inside of the hull was renewed.

This surprisingly spacious Friese Tjalkje is in a very good condition and is ready for years of sailing pleasure.

Construction material	Steel
Hull shape	Flatbottom
Deck	Steel non skid
Superstructure	Steel
Keel / leeboard	Oak sideboard keels
Rudder	1 x
Steeringsystem	Mechanic wheel steering
Windows	Hora windows with tinted glass in aluminium frames (2007)
Displacement	9,300 kg.
