The Kapiteinsloep 700 'De Groene Veghter' is built according to the lines of a captain's sloop. It has resulted in a beautiful sloop with an optimally lined underwater hull, which gives her a large range with the electric motor.

She is built with great attention to detail. This is how the beautifully shaped mirror is built convex.

Construction material	Wood epoxy
Hull shape	Round bilged
Deck	Oak on Joubert Okoume; Cockpit: Joubert Okoume set in epoxy
Rudder	Attached rudder
Steering system	Hydraulic wheel steering
Displacement	1,000 kg.
Airdraft	1,00 m.
Yard	Self built
