The Kuster A-42 was designed by Willem Nieland and built by Consonant Yachts for the discerning boater who desires a wide cruising range (covering both inland and open waters), comfort for extended stays on board, and a high-quality finish. The Kuster A-42 boasts excellent handling characteristics on both inland and open waters and is well-suited for long voyages. Its deep cockpit enhances the vessel's seaworthiness.

This Kuster A-42 features an extensive hydraulic system powering the bow and stern thrusters, anchor winch, and a fold-out swim platform. It is also equipped with hydraulically driven stabilizers, ensuring stability in open water.

Double glazing and central heating make this Kuster A-42 ideal for extended periods on board.

This Kuster A-42 was repainted in 2024 and is stored in a shed every winter.
