The current owner has owned the Noorse Fjorden Sloep 24 for about thirty years. In 1995 the sloop underwent a refit, which showed that the hull was still in good condition. The teak decks were then renewed and the superstructure was placed. At the same time, the 2 cylinder diesel was installed. The age of the trunk is unknown.

The Noorse Fjorden Sloep 24 has been little used and has been under roof by far most of the time.
