Cornelis Valk designed this One Off for himself as a competition ship and had it drawn by Siebe van der Meer. Since he could not weld, the sailing yacht was riveted.

It has resulted in this beautifully lined and very good sailing yacht. The superstructure and cockpit are made of blond teak, which gives it a very nice look.

The Valk 960 One Off has always remained in the family and therefore the full history is known.

The sailing yacht has always been in a ship house.

Construction material	Steel, 3 mm.
Hull shape	Round bilged
Deck	Teak on Bruynzeel waterproof bonding wood. Teak deck renewed in 2020
Superstructure	Blonde teak
Keel / leeboard	Long keel
