This Valk Kotter 1000, named 'Valkenhorst', is one of the first yachts launched by P. Valk. The original dates from around 1960 with an all-wood superstructure. Only one example was ever built.

In 2005, the previous owner had the cutter completely rebuilt, retaining only the hull (!!). The decks and superstructure were built by Scheepsbouw Kroes, and the interior by Wija from Grouw. All the equipment, engine, tanks, and paneling are from 2005! No expense was spared during the refit.

The Valk Kotter 1000 is a beautifully lined cutter that can also be sailed as a motor yacht. Its generous beam gives the Valk Kotter 1000 OK a spacious interior. The wide gangways also enhance comfort.
