General

10 Photos [↗](#)

The Valk Spiegelkotter 1500 is a classically lined round bilged motor yacht with the comfort of a modern motor yacht. This is partly due to the width of 4.65 m.

The motor yacht has very good sailing characteristics both on inland and open water. Bad weather on large water is also no problem for the Valk Spiegelkotter 1500.

With this Valk Spiegelkotter 1500, no savings have been made during construction. The paneling is very beautifully executed in teak and is in beautiful condition. She is suitable for a comfortable long stay on board and long journeys through Europe.

Let us inform you without obligation about this Valk Spiegelkotter 1500.

| | |
|------------------------------|--|
| Construction material | Steel |
| Hull shape | Round bilged |
| Deck | Teak on aluminium (needs attention) |
| Superstructure | Aluminium |
